## Landen Strapping Announces Expansion at Hopewell Facility!

**HOPEWELL, VA** – Landen Strapping, a world renowned strapping systems producer, has announced a 5,400 square foot expansion at their Hopewell facility. This expansion is a \$300,000-\$400,000 investment for the company!

The City of Hopewell is pleased to announce a ground-breaking ceremony for the expansion on Thursday, July 30<sup>th</sup> at 5:30pm. The ceremony will be held at Landen Strapping’s Hopewell facility, located at 624 S 6<sup>th</sup> Avenue Hopewell, VA 23860.

Landen Strapping was originally formed in 1978 as Continental Engineering and has now become world renowned for some of the most simplistic and reliable strapping systems available.

Since the inception of their strapping machine division, Landen Strapping has focused exclusively on niche industries where harsh environments and high production rates are the norm. Landen separates itself by designing and manufacturing systems that are “tailor-made” to the customer’s production settings.

Landen Strapping relocated to Hopewell in 2015, and has seen tremendous growth as a company since. Landen Strapping is also a great corporate citizen, who consistently supports our schools, sports programs and other needs of the community.

Landen Strapping can be reached by phone (804) 452-2005 or online at [www.plasticstrappingmachines.com](http://www.plasticstrappingmachines.com).
