Summer Paving Program Update

Hopewell, Virginia - Summer Paving Program Starting August 12, 2022

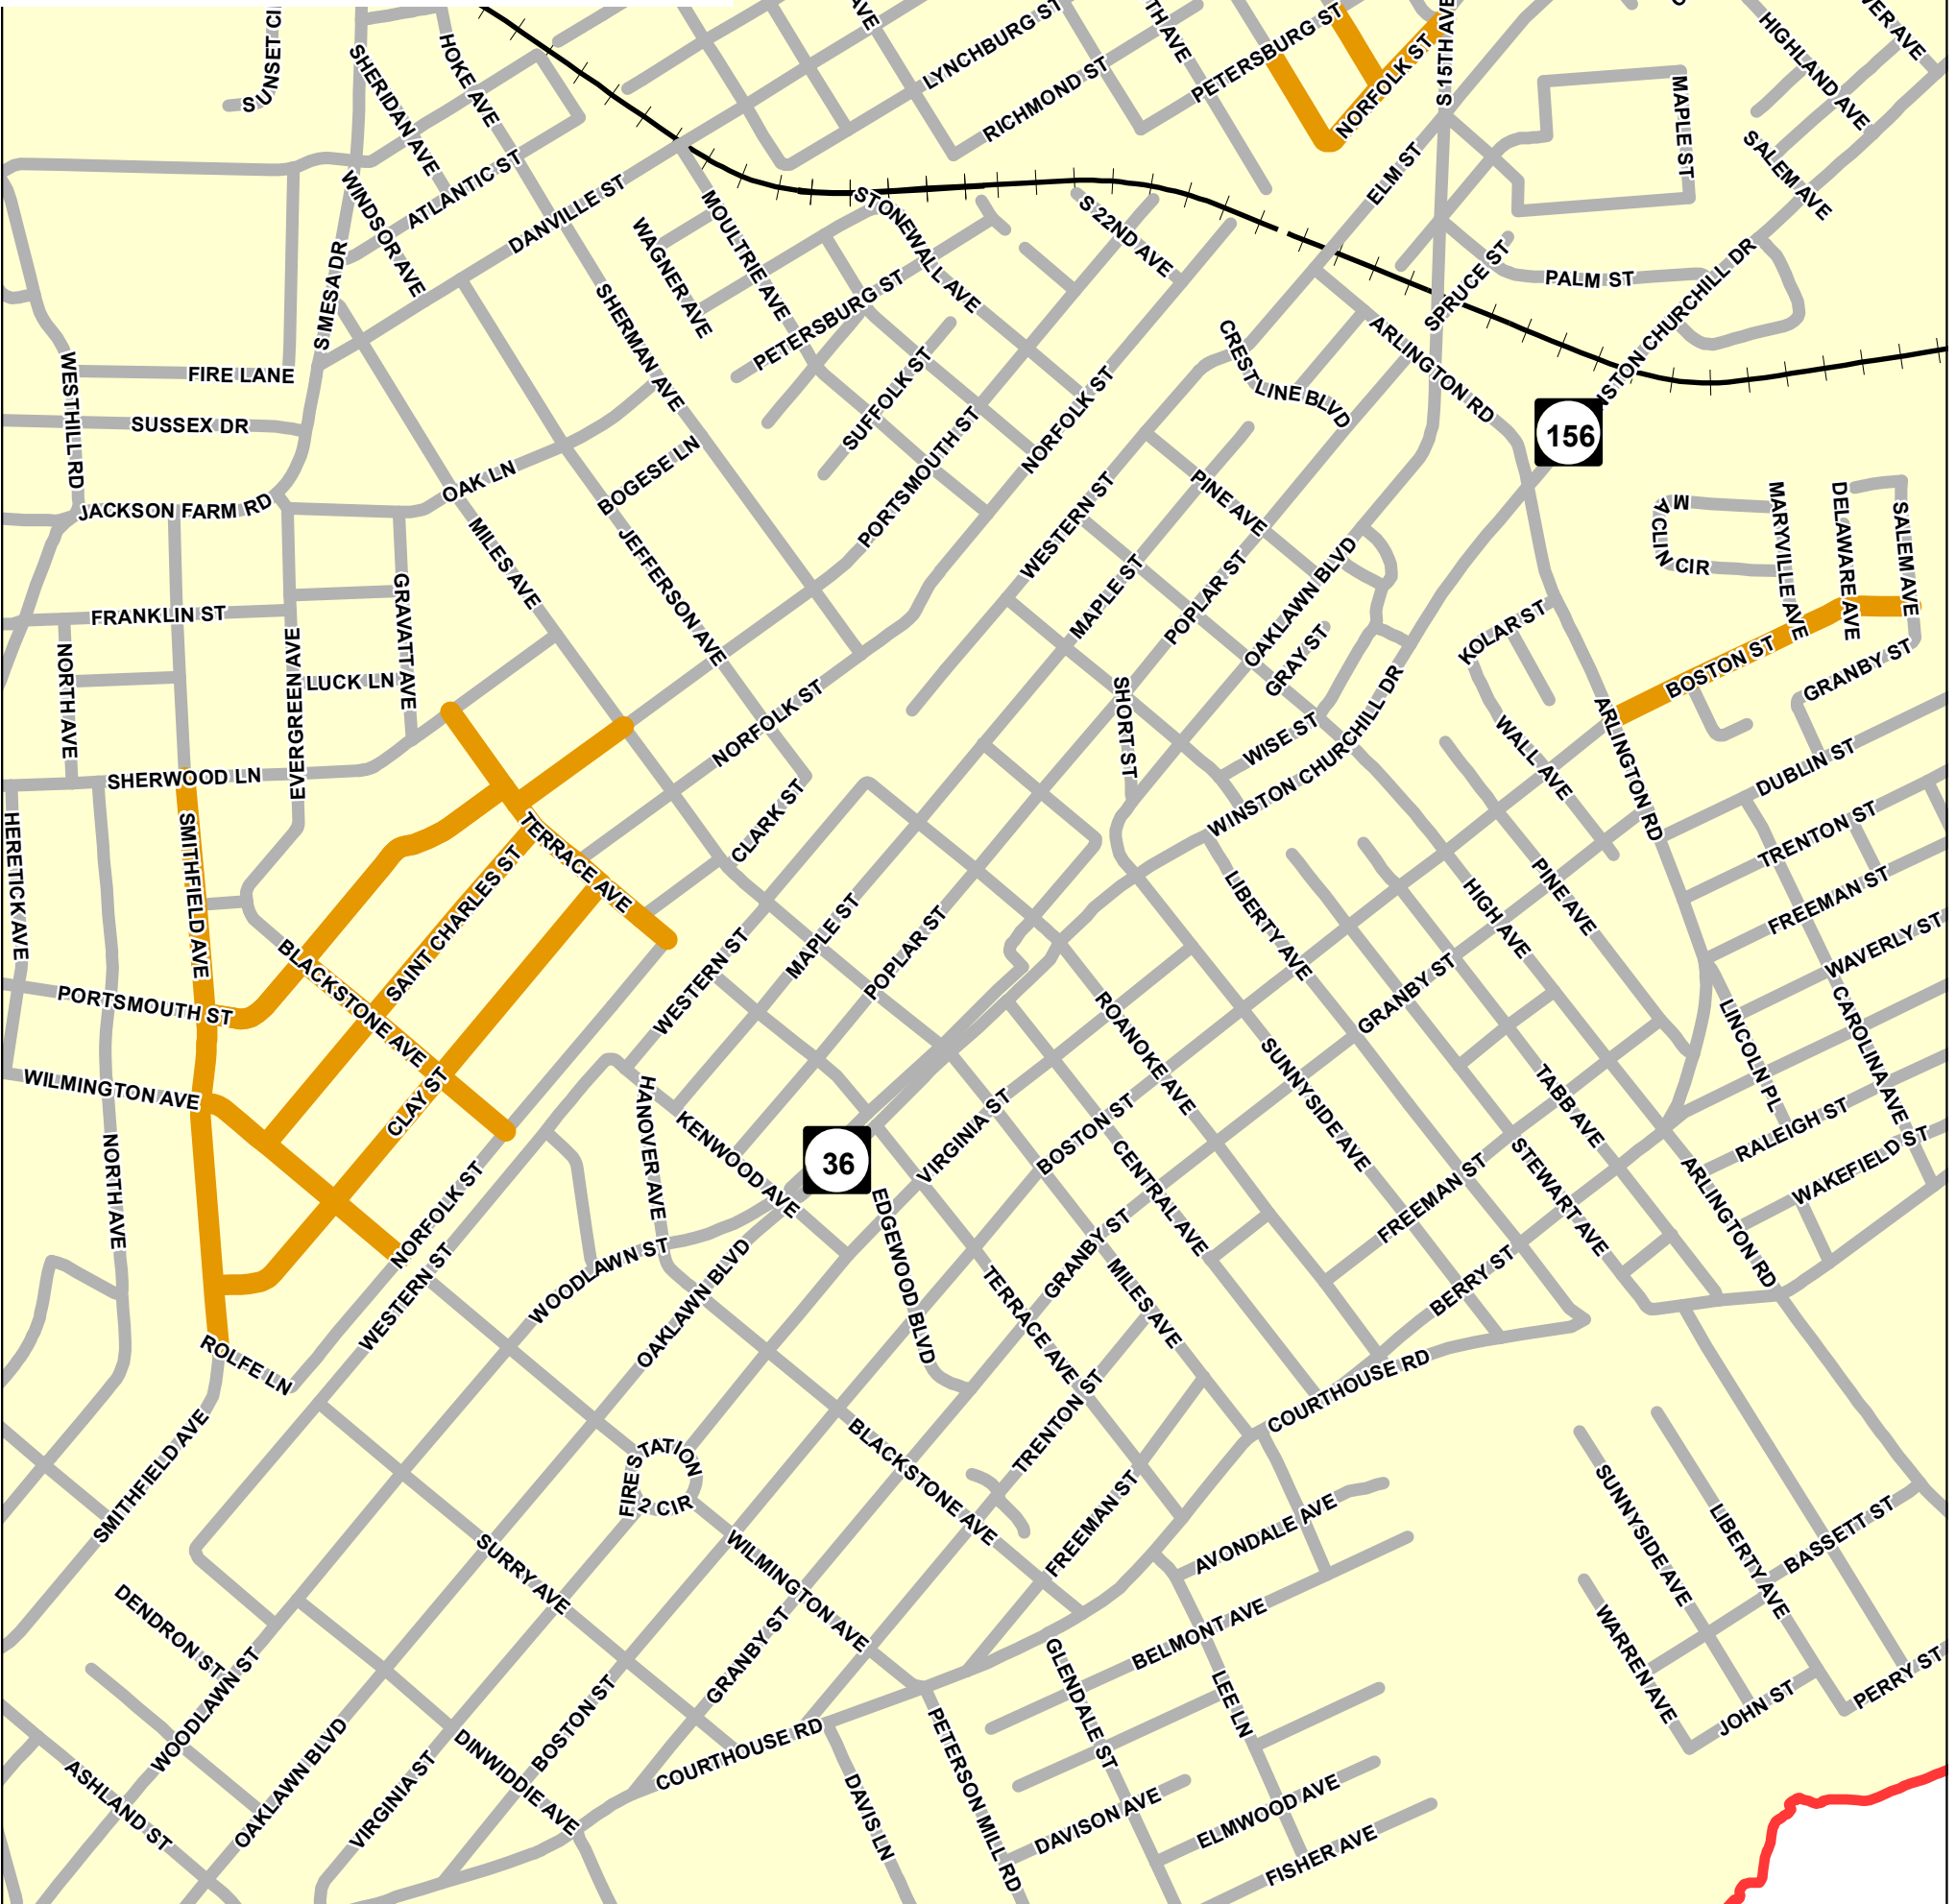

The City of Hopewell will commence its summer paving program on or about Friday August 12, 2022. The City had to push back the start date about one week due to weather and unforeseen scheduling conflicts with the City's paving contractor. The summer paving program will include the pavement resurfacing of eleven local streets within the City.

Residents that live along the streets proposed for pavement rehabilitation will receive individual notices August 10-12, 2022 depending on their location. The City's paving contractor will post NO PARKING signs approximately two days before the pavement rehabilitation starts on each street segment. Minimal detouring of vehicle traffic will be required during this operation, and all residents may park personal vehicles on the street before 7:30 AM and after 5:00 PM each workday.

If you would like additional information about the summer paving program, please contact Austin Anderson, City Engineer at (804) 541-2379 or Maurice Wilkins, Construction Manager at (804) 541-2374. The daily on-site inspector is Tim Bell at (804) 541-2231.

Please see the attached 2022 Summer Paving Program with highlighted streets planned for pavement rehabilitation.

<u>Street</u>	<u>Linear Length</u>
